Fish Rock Cave

Friday 19th February 3pm - Sunday 21st February 2009 5.30pm

Australia's best ocean cave dive, and voted among the top ten dive sites in Australia, Fish Rock is located at South West Rocks on the New South Wales Mid North Coast.

The thrill of travelling through a 125 metre long cave is one dive you will not want to miss. As well as the cave itself, Fish Rock is home to such an amazing array of marine life, including Grey Nurse Sharks, that you will easily understand how the island came to be named. Fish Rock Cave runs from the deeper seaward entrance at 24 metres, 125 metres through the rock emerging into the blue, fish filled, silhouetted shallower entrance fringed by pink gorgonian corals at 12 metres. Join Go Dive Australia on this great weekend.
