

PADI Emergency First Response (Primary & Secondary Care)

Start your course and become a Life Saver today!

The Emergency First Response course combines Primary Care (CPR) and Secondary Care (First Aid) with flexible home study and practical hands on training.

CPR prepares you to render aid to those with life threatening emergencies while First Aid enables you to build on Primary Care skills by assisting those in need when Emergency Medical Services are delayed or unavailable.

Includes:

- Emergency First Response Manual (Primary and Secondary Care)
- Latex gloves
- The opportunity to improve your Emergency First Response skills and confidence
- All instruction by a professional PADI Instructor

PADI Emergency First Response Course only \$180
